Jasperactive™
A Revolutionary Desktop Application Learning Solution

Founded on CCI Learning's world-leading courseware, Jasperactive is the world's first kinesthetic Microsoft Office learning and validation system mapped to the Microsoft Office Specialist Global Standard.

Jasperactive embraces what you know so you can focus on learning what you don't.

CCI Learning's courseware comes to life through a complete hands-on interactive learning experience.

85% of supervisors say Microsoft Office certified employees are more productive!

With Microsoft Office being one of the top 3 skills required for jobs today, the question isn't "do I need these skills" but "who doesn't need these skills".

Jasperactive provides a hands on and engaging personalized experience.

Jasperactive is the perfect solution for anyone looking to learn Microsoft Office.

Badge Success!
Students earn and display badges* across the web, social media and on their resume.
* Uses Mozilla Open Badges Technology

The Prescriptive Learning Pathway

With a five step Prescriptive Learning Pathway, we have created a human centered experience that stimulates excellence in the acquisition of understanding.

- Benchmark** - The Benchmark Test determines your skill level and builds a prescribed course plan using only the lessons you need.
- Learn** - CCI Learning's award winning courseware is embedded throughout Jasperactive. Each prescribed lesson begins with a self testing quiz to determine and deliver only those lesson topics you need to learn. Hands-on learning exercises operate live directly within the actual desktop application!
- Practice** - Repeat the practice exercises multiple times to perfect your skills.
- Create** - A project-based exercise to combine your skills and creativity.
- Validate** - Once your lessons are complete, validate what you have learned.

Jasperactive measures an individual's understanding of Microsoft Office, and prescribes a personalized course to each student.

Jasperactive Empowers Teachers.

question parameters allowing for infinite variations of the five.

Features

- ✓ Mapped to the Microsoft Office Specialist Global Standard
- ✓ Accessible to all learners irrespective of previous experience with Microsoft Office
- ✓ Complete hands-on live in-application prescriptive learning experience
